

How to get more women (and diversity) into openSUSE

openSUSE conf 2011

Who am I and why am I here?

Why do you want more women/diversity?

Why do you have so few women/little diversity right now?

- How would you describe the openSUSE community and the atmosphere in it?
 - Do you have a culture that values different kinds of contributions?
 - Who are the role models in the community?
 - Do people step in when bad things happen?
 - What is the picture the community projects to an outsider? A lurker?

Why do you have so few women/little diversity right now?

- Do you attract people who are different who then leave again or do they not show up in the first place?
- What are the women/... you have already like? What are they working on?
- Who are you doing outreach to and how?

How do you get more women/diversity in the future?

Questions?!
